INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and aggregate remaining fund information of the **Crystal Falls District Community Library**, as of and for the year ended December 31, 2006, which collectively comprise the Library's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Library's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Board of Trustees, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of the **Crystal Falls District Community Library** at December 31, 2006, and the respective changes in financial position thereof for the year ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 09, 2007 on our consideration of the **Crystal Falls District Community Library**'s internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with the report in considering the results of our audit.

The management's discussion and analysis on pages 7 through 13 and the budgetary comparison information are not required parts of the basic financial statements but are supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Crystal Falls District Community Library**'s basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

237 SUPERIOR AVENUE. CRYSTAL FALLS, MI 49920-1421

The management of the Crystal Falls District Community Library provides this narrative overview and analysis of the financial activities of the Library for the year ended December 31, 2006. As readers, you are encouraged to read this discussion and analysis in conjunction with the Library's financial statement information included in this report.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Library's basic financial statements. The financial section of this report includes management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Library's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements

The Library, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. All of the funds of the Library are governmental funds.

237 SUPERIOR AVENUE. CRYSTAL FALLS, MI 49920-1421

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spend-able resources, as well as on balances of spend-able resources available at the end of the fiscal year. This information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In order to provide the reader with information to better understand the long-term impact of the government's near-term financing decision, a reconciliation between the government-wide financial statements and the fund financial statements is included as part of the basic financial statements.

The Library maintains two governmental funds. Information is presented separately in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and debt service fund, both of which are considered major funds.

The Library adopts an annual budget for its general fund. To demonstrate compliance with this budget, a budgetary comparison statement has been provided for the general fund, and is included in the "Required Supplementary Information" section of this document.

Notes to the Financial Statements

Notes to the financial statements are included in the basic financial statements, and provide additional information that is essential for a full understanding of the data provided in the government-wide and the fund financial statements.

Supplementary Information

<u>Required supplementary information</u> follows the basic financial statements, and includes budgetary comparison schedules for the General Fund as presented in the governmental fund financial statements.

237 SUPERIOR AVENUE. CRYSTAL FALLS, MI 49920-1421

Government-wide Financial Analysis

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the Library, assets exceeded liabilities by \$470,444 at December 31.

By far, the largest portion of the Library's net assets is its investment in capital assets (land, buildings, machinery, and equipment), less any outstanding debt related to acquiring the asset. These capital assets are used to provide services to citizens and are not available for future spending. Although the Library's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. At December 31, 2006, the Library reported \$358,422 in capital assets net of related debt.

Summary of Net Assets

In a condensed format, the following is a summary of the Library's net assets at December 31, 2006 and 2005:

Governmental Activities

Property taxes comprise \$ 148,448 or approximately 80 percent of total governmental revenues. Penal fines were \$ 15,831, or approximately 9 percent of total revenues.

The Library expensed \$ 157,713 on governmental programs and services. The largest expense category was incurred for Library administration, which totaled \$ 70,790, or approximately 45 percent of total expenditures. Of this amount, \$ 63,756 was paid directly for salaries and benefits.

Costs of providing direct Library services were \$ 36,620, or approximately 24 percent of total expenditures. Occupancy costs excluding debt service were \$ 13,466, or approximately 9 percent of total expenditures.

Final Analysis of the Governmental Funds

As previously noted, the Library uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing the Library's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

The Library's governmental funds reported combined ending fund balances of \$112,022, of which \$96,964 is unreserved and is available for spending at the government's discretion. \$5,500 is designated for building, \$6,000 is designated for roof repair or replacement, \$1,308 for debt service, and \$2,250 is designated for other purposes.

The Library's primary governmental fund is the general fund.

On the budgetary basis of accounting, the Library ended the fiscal year with revenues higher than both the original and the final projections. Total expenditures were lower than both the original and the final budgeted amounts. At year-end, the fund balance was higher than both the original and the final amended budget projections.

\$115,850	\$118,206	\$133,642	\$17,792	\$15,436

General fund financial and budgetary highlights of the fiscal year include:

- * Property tax revenue exceeded original and final budgetary projections by \$8,000.
- * State aid was up slightly from the original and final amended budget, coming in at \$2,713 which is \$213 more than the original and final budgeted estimates of \$2,500.
- * Expenditures in total for the general fund were \$ 130,311, less than the final amended budget of \$138,801 and the original budget amount of \$144,613. This was due in part to salaries and benefits costs coming in less than the final budgeted amount by \$4,507. Memberships and dues actual expenditures were below both the final and original budgeted amounts.

Capital Asset and Debt Administration

Capital Assets

The Library's investment in capital assets, net of accumulated depreciation, for its governmental activities as of December 31, 2006 and 2005, were \$500,424 and \$518,411, respectively. The investment in capital assets includes land, buildings, furniture and fixtures, computers, and other equipment. The Library has no infrastructure assets.

There were no major capital events during the current year.

Long-term debt

As of December 31, the Library had total debt outstanding of \$ 142,002. Of this amount, \$50,434 is due and payable within the next 12 months.

Priorities and Accomplishments

The following areas highlight the Library's priorities and accomplishments:

- ** During 2006 the Library had 25,679 visitors.
- ** Adult materials loaned were 17,686, a slight decrease from 18,176 in 2005.
- ** Student materials loaned were 13,939, an increase from 11,295 in 2005.
- ** Reference usage in 2006 was 1,857.
- ** In 2006, the Library purchased 1,065 new books, 85 music CD's, 100 new books on tape, 150 VHS tapes, 227 DVD's, and 110 books on CD.
- ** Our meeting room was used 116 times, and 3,970 people used the computers in 2006.
- ** Children's programs were increased from once a month to twice a month.

Requests for Information

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to:

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2006

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the **Crystal Falls District Community Library** conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

THE FINANCIAL REPORTING ENTITY

The **Crystal Falls District Community Library** (Library) was reorganized in 1989 to provide library services to the City of Crystal Falls, Mansfield Township and Crystal Falls Township, Michigan. The Board operates under an appointed board of trustees and provides library services to its approximately 3,784 residents.

The criteria established by GASB Statement 14, The Financial Reporting Entity, is used to determine the primary government unit and the component units to be included in the financial reporting entity. This Statement describes the characteristics of a primary government unit, which include a separately elected governing board, legally separate government possessing corporate power and separate legal standing, and fiscal independence. GASB 14 also provides criteria for defining the component unit, based on the fundamental concept of accountability. On this basis, the financial statements of certain other governmental organizations are not included in the financial statements of the Library.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

DECEMBER 31, 2006

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BLENDED COMPONENT UNITS

A blended component unit is a legally separate entity from the local unit, but is so intertwined with the unit that it is, in substance, the same as the local governmental unit.

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government. This is achieved through the discrete presentation method. However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements.

When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

BLENDED COMPONENT UNITS (Continued)

There are no blended component units to be included in the financial statements of the Crystal Falls District Community Library.

JOINT VENTURES

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing responsibility.

An ongoing financial responsibility is defined as a participating government's obligation in some manner for debts or the joint venture's existence depends on continued funding by the participating government.

There are no joint ventures to be included in the financial statements of the Crystal Falls District Community Library.

JOINTLY GOVERNED ORGANIZATIONS

A jointly governed organization is a multi-governmental arrangement that is governed by representatives from each of the governments that create the organization, but that is not a joint venture because the participants do not retain an ongoing financial interest or responsibility.

There are no jointly governed organizations to be reported by the **Crystal Falls District Community Library** as defined above.

RELATED ORGANIZATIONS

A related organization is an organization for which a primary government is not financially accountable (because is does not impose will or have a financial benefit or burden relations) even though the primary government appoints a voting majority of the organization's governing board.

There are no related organizations to the **Crystal Falls District Community Library** as defined above.

BASIS OF PRESENTATION

The Library follows GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

Management's Discussion and Analysis

This is a narrative introduction and analytical overview of the government's financial activities. This analysis is similar to analysis the private sector provides in their annual reports.

Government-wide financial statements

These include financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt).

Government-wide financial statements (Continued)

Accrual accounting also reports all of the revenues and costs of providing services each year or soon thereafter. The government-wide statements include the Statement of Net Assets and the Statement of Program Activities.

Statement of Net Assets

The Statement of Net Assets displays the financial position of the primary government.

Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense – the cost of "using up" capital assets – in the Statement of Activities. The net assets of a government are broken down into three categories – 1) invested in capital assets, net of related debt; 2) reserved; and 3) unreserved.

Statement of Program Activities

The statement of activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated by the function (for instance, through user charges or intergovernmental grants).

Budgetary comparison schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The Library and many other governments revise their original budgets over the course of the year for a variety of reasons.

As required by accounting principles generally accepted in the United States of America, these financial statements present the primary governmental entities for which the government is considered to be financially accountable.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The basic financial statements include both government-wide (based on the Library as a whole) and fund financial statements. The reporting model focus is on both the Library as a whole and the fund financial statements, including the major individual funds of the governmental categories.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Assets, the governmental columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt obligations. Both government-wide and fund financial statement presentations provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information. The Library generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available. The Library may defer the use of restricted assets based on a review of the specific transaction.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

The government-wide Statement of Activities reflects both the gross and net cost per functional category (administration, occupancy, special programs, and Library services) that are otherwise being supported by general government revenues (property, state aid, penal fines and interest, and investment earnings). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions.

The program revenues must be directly associated with the function (administration, occupancy, special programs, and Library services). Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment.

Taxes and other items not properly included among program revenues are reported as general revenues. The Library does not allocate indirect expenses. The operating grants and contributions column includes operating-specific and discretionary (either operating or capital) grants while the capital grants and contributions column reflects capital-specific grants.

In the fund financial statements, financial transactions and accounts of the Library are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain regulations, restrictions, or limitations.

GOVERNMENTAL FUNDS

These funds are those through which most governmental functions typically are financed.

The acquisition, use, and balances of the Library's expendable financial resources and the related current liabilities are accounted for through the Governmental Funds.

These funds are as follows:

General Fund

This fund is used for all financial transactions not accounted for in another fund, including the general operating expenditures of the local unit.

Revenues are derived primarily from property taxes and state and federal distributions, grants, and other intergovernmental revenues.

For reporting purposes, the General Fund is always considered to be a major fund.

Special Revenue Funds

These funds are used to account for specific governmental revenues requiring separate accounting because of legal or regulatory provisions or administrative action.

There are no special revenue funds for the Library.

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

The Debt Service Fund is a major fund for reporting purposes.

The governmental funds use the modified accrual basis of accounting.

Capital Projects Fund

These funds are used to account for the purchase and/or construction of capital facilities by a governmental unit which is not accounted for by Proprietary Funds, Special Assessment Funds, or Trust Funds. The various resources of the governmental unit to be used in the projects, such as General Fund contributions, grants from other units of government and bond proceeds, flow into the Capital Project Fund. Expenditures incurred in the development of the facility are also recorded within the Capital Project Fund.

There is currently no capital projects fund for the Library.

PROPRIETARY FUNDS

Enterprise Funds

These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises----where the intent of the governing body is that the costs (expenses including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purpose.

There are no proprietary funds for the Library.

FIDUCIARY FUNDS

Trust and Agency Funds

Trust and Agency Funds are used to account for assets held by the Library in a trustee capacity for individuals, private organizations, other governmental units, and/or other funds.

MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide statement of net assets and statement of activities are accounted for on a flow of economic resources measurement focus.

The statement of net assets and statement of activities are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The fund financial statements of the General and Debt Service funds are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus.

MEASUREMENT FOCUS (Continued)

Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenue and other local taxes, the term "available" is limited to collection within forty-five days of the fiscal year-end. Levies made prior to the fiscal year-end but which are not available are deferred. Interest income is recorded as earned. Federal and State reimbursement-type grants revenue are considered to be measurable and available as revenue when related eligible expenditures are incurred.

Expenditures, other than accrued interest on long-term debt, are recorded when the fund liability is incurred.

The local governmental unit applies all GASB pronouncements as well as the FASB pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

It is the Library's policy to honor all unfilled contracts/orders at year-end, but the authority to complete these transactions is provided by the new year's budget appropriations, as unexpended appropriations of the current year lapse at year-end.

CASH AND CASH EQUIVALENTS

The Library pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements.

NOTE J - RELATED PARTY TRANSACTIONS

Related parties exist when there is a potential for transactions at less than arm's length, favorable treatment, or even the ability to influence the outcome of events differently from that which might result in the absence of that relationship.

Financial statements must include disclosure of material related party transactions, other than compensation arrangements, expense allowances and similar items in the ordinary course of business.

However, disclosure of transactions that are eliminated in the preparation of combined financial statements is not required in those statements.

On this basis, there were no related party transactions reported in the financial statements.

Subsequent events have a material effect on the financial statements which requires adjustment or disclosure. They relate to events that provide additional evidence with respect to conditions that existed at the date of the balance sheet and events that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose subsequent to that date.

At fiscal year ended December 31, 2006, there were no subsequent events that would have a significant effect on the Library's operations.

NOTE L – COMMITMENTS AND CONTINGENCIES

The Library participates in state and federal grant programs which are governed by various rules and regulations of the grantor agencies.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE L – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Library has not complied with the rules and regulations governing the grants, refunds of money received may be required and the collectibility of any related receivable at December 31, 2006 may be impaired. In the opinion of the Library, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors **Crystal Falls District Community Library** Crystal Falls, Michigan 49920

We have audited the financial statements of the governmental activities, business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **Crystal Falls District Community Library**, Crystal Falls, Michigan as of and for the year ended December 31, 2006, which collectively comprise the **Crystal Falls District Community Library**, Crystal Falls, Michigan's basic financial statements, and have issued our report thereon dated May 09, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **Crystal Falls District Community Library**, Crystal Falls, Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **Crystal Falls District Community Library**, Crystal Falls, Michigan's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **Crystal Falls District Community Library**, Crystal Falls, Michigan's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the **Crystal Falls District Community Library**, Crystal Falls, Michigan's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the **Crystal Falls District Community Library**, Crystal Falls, Michigan's financial statements that is more than inconsequential will not be prevented or detected by the **Crystal Falls District Community Library**, Crystal Falls, Michigan's internal control.

A material weakness is a significant deficiency, or combination of deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the **Crystal Falls District Community Library**, Crystal Falls, Michigan's internal control.

Internal Control Over Financial Reporting (Continued)

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of the section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **Crystal Falls District Community Library**, Crystal Falls, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, the Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
